Imperial Stout

Family Status:
The hearty, resourceful neighbor

Availability:
November–January

Packaging:
4-Pack, 1/6 BBL, 1/2 BBL

ABV: 9.0% ABW: 7.2% IBU: 50 GRAVITY: 23°P

Name Origin: Yes, it's a dark brew. And much like the “Blackout of 2003” that left the northeastern United States in complete darkness, this hearty stout can also give rise to old-fashioned neighborhood get-togethers and down-home fun.

Style Origin: This strong, rich brew originated from recipes that British brewers tailored for the czars and czarinas of the Russian Imperial Court.

Flavor: Hearty malt body and bold hop flavor

Ingredients:

MALT

Harrington 2-Row Base Malt: Allows color and flavor from other specialty malts to come through; makes for very clean beer

Crystal 77: Contributes to color and adds sweeter aroma and flavor

Black Malt: Provides deep, rich color

Roasted Barley: Adds color and roasted flavor

HOPS

Simcoe: Unique, non-traditional bittering hop; provides high levels of bitterness to counteract beer's heavy malt

Northern Brewer: Traditional bittering hop for English-style ales; very different from Simcoe, but added together to add complexity to the hop profile

Pairs With: Grilled red meats, wild game, caviar and chocolate desserts

Shelf Life: 270 days
