Simcoe, Mosaic, Citra, Jarrylo

**SPECIAL:**

Orange Peel, Lemon Peel

**BEHIND THE NAME:**

Cloud Cutter's colorful artwork was inspired by the historic Cleveland Air Races, which were first held in 1929. The Gee Bee R-1 race plane featured on the label was once the star of that show. In the same way those historic planes sliced through the skies, our Hoppy Wheat Ale's bright citrus aromas and flavors are a one-way ticket to sunshine.

**ABOUT THE STYLE:**

Cloud Cutter combines the light, cloudy characteristics of an American Wheat Beer with the clean, hoppy characteristics of an American Pale Ale. American Wheat Beers are refreshing, medium-light bodied, and have less yeast character than German Wheat Beers. Wheat gives a creamier texture which is balanced by higher carbonation and dryer hop flavor and bitterness.
