BEHIND THE NAME:

Survey our label artwork and you'll discover a statue of Moses Cleaveland, our beloved city's founder and this delicious White Ale's namesake. Moses and his party landed at the mouth of the lush, vibrant Cuyahoga River in July of 1796, not far from our brewery (which we founded about 190 years later).

ABOUT THE STYLE:

Wheat beers are low in bitterness and hop character, highly carbonated, and frequently light-bodied. Belgian Wit Ales are brewed with ground coriander seed and orange peel (ours includes chamomile). This slightly cloudy style is known for trapping complex aromas in its fluffy, dense head including citrus, herbs, spice, and pepper.
